Call for Participation

The largest annual Computer Science conference in Germany meets in Stuttgart, Germany, on September 22 - 26, 2014. Two theme days focus on managing complexity and on Big Data. 10 renowned keynote speakers address the themes from their industrial and scientific perspectives:

Michael Gorriz, Daimler AG
Dirk Wittkopp, IBM Deutschland Research & Development GmbH
Johannes Helbig, Soa-Innovation-Lab
Karsten Schweichhart, Deutsche Telekom AG
Manfred Broy, Technische Universität München
Karl-Heinz Streibich, Software AG
Peter Schaar, European Academy for Freedom of Information and Data Protection
Stefan Wrobel, University of Bonn and Fraunhofer IAIS
Gerhard Weikum, Max-Planck-Institute for Informatics and Saarland University
Peter Sanders, Karlsruhe Institute for Technology

34 workshops, 8 tutorials and 4 associated conferences add to an overall program comprising more than 300 talks, where attendees can pick and choose their favorite topics across all the co-located events for a single conference fee.

The associated conferences are:
• KI 2014, 37th German Conference on Artificial Intelligence
• MATES 2014, 12th German Conference On Multiagent System Technologies
• Integrata-Kongress 2014, Privacy in the E-Society
• SKILL 2014, Student Conference Informatik 2014

Online registration ends on September 21st. On-site rates are noticeably more expensive. Some events have limited capacity. Early registration is highly advisable.
